

The AGA Compact

The AGA Compact is built around the essentials of AGA cooking, centred on cast-iron, heat-storage ovens and the steady heat they provide. With an induction hob for added speed and control when needed, it holds to the principles that define a heat-storage AGA cooker while offering greater flexibility for how you cook day to day.

Smaller in depth than the Classic and Signature models, the AGA Compact is designed to sit neatly within standard kitchen cabinetry.

KEY FEATURES

- Available in 90cm, 100cm and 110cm widths
- boiling / simmering plate with two- or three-zone induction hob depending on model size
- Two cast-iron ovens for roasting/ baking and simmering, with a stainless-steel warming oven and cookware storage (depending on width)
- Cast-iron resting area
- Fully electric and compatible with solar and renewable energy
- AGA-branded stainless-steel handrail
- Choice of enamelled or stainless-steel hotplate lids
- Create a more personal configuration with an optional 60cm AGA Extension Module, allowing your cooker to be extended to 150cm, 160cm or 170cm
- Room vented
