

The AGA ERA®

ERA is a mix of evolution and revolution. It's where technology meets design and where heritage meets modernity. And it's where glass is used extensively for the first time to create a striking, unified aesthetic that is beautiful, contemporary and fits perfectly into a modern kitchen.

Alongside a fan oven, ERA has two cast-iron, heat-storage ovens which cook using radiant heat. This offers an intuitive, kind-to-food way of cooking.

KEY FEATURES

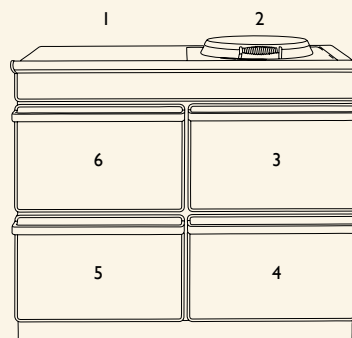

- Flexible cooking with the option to use one or multiple ovens
- Two cast-iron ovens for roasting/baking and simmering
- Fan oven with viewing window
- Four-zone induction hob and a hotplate for either boiling or simmering
- Discreet electronic touch controls with AGA programmer compatibility
- Cast-iron resting area
- Fully electric and compatible with solar and renewable energy
- Polished chrome trim design
- AGA-branded handrail
- Altrashell® coated cast-iron ovens for a durable, easy-clean finish.
- Room vented
