

The AGA Mini

Cast Iron

The AGA Mini Cast Iron cooker brings the enduring qualities of AGA cast-iron cooking into a smaller space without losing the warmth and capability that define an AGA.

The cooker has two cast-iron, heat-storage ovens. The top one is for roasting or baking, while the bottom simmering oven offers a gentler heat that allows for slower cooking. On top, you can choose a traditional AGA hotplate or a gas hob.

Control is intuitive. With independently operated ovens and hotplate, the AGA Mini offers flexibility for everyday cooking.
