

The AGA Mini *Conventional*

The AGA Mini Conventional is conventional in function yet unmistakably AGA in spirit.

It brings a different kind of flexibility. It can sit comfortably in a kitchen with a larger AGA or stand alone as your main cooker, offering freedom in both placement and use. Inside, a fan oven provides reliable heat for everyday cooking, while the slow-cook oven allows dishes to develop gently over time. An integral grill adds versatility.

You can choose between a four-burner gas hob or a four-zone ceramic hob. Flexible in design and generous in capability, the AGA Mini is a thoughtful addition to the kitchen.
